List	of Tables	
2.1	Interpreting Abrasion Wear in the Light of Concrete's Surface and Core Hardness, and Type of Abrasion Test	2 – 20
2.2	Relative Performance of Various Surface Treatments	2 - 158
2.6	% Abrasion of Various Surface Treatments relative to Untreated Concrete	2 - 165
3.1	Boussinesq's Equations as Applied to a Point Load	3 – 29
3.2	Depth at which Vertical Stress on a Concrete Element at the Centre of the Load Equals or Exceeds 98%	
4.1	Classification of Abrasion and Related Tests	4 - 4
4.2	Short comings of Abrasion Tests	4 – 26
4.3	Critical comparison of 6 Abrasion tests	4 - 35
5.1	Characteristics of the Abrasion Load	5 - 8
